## **DETAILED ACTION**

### ***Election/Restrictions***

1. The inventions are distinct, each from the other because of the following reasons:

Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-13 and 15-19, drawn to a method and system for determining the station address of a party placing a call, classified in class 379, subclass 201.08.

II. Claim 14, drawn to a subject matter including determining the position of a wireless telephone which has made an emergency or alarm call, classified in class 455, subclass 404.2.

III. Claims 20-25, drawn to a subject matter comprising combination of a telephone system or component and the Internet for determining the station address of a party placing a call, classified in class 379, subclass 900.

2. Inventions I, II and III are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP<sup>o</sup> 806.05(c)). In the instant case, invention Group I has separated utility such as a method

and system for determining the station address of a party placing a call; Group II has separated utility such as a method for determining the position of a wireless telephone which has made an emergency or alarm call; and Group III has separated utility such as a method and system for determining the station address of a party placing a call using data network.

3. The inventions are distinct, each from the each other because of the following reasons:

a. These inventions have acquired a separate status in the art as shown by the different classification

b. The search required for one Group is not required for the other group

For the reasons above restriction for examination purposes as indicated is proper.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1. 14 (b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48 (b) and by the fee required under 37 CFR 1. 17 (h).
